SUSTAINABLE
St Albans

Working together for an environmentally sustainable district

Watch our speaker videos now

Act One

Suzanne Dolan

Knowledge is power

People everywhere are taking steps to reduce their carbon footprint. But what steps can you take to make the biggest difference?

Heidi Mansell

Nature as the teacher

Raising awareness of the fantastic green spaces in Harpenden and offering fun examples of how people can learn in nature.

Charlene Clear

Imagining tomorrow's homes

An insight into the near and distant future of new homes; energy, health and the role of technology.

Stefania Estacchini

Growing your home!

Practical, real examples of bioclimatic home extensions designed to save energy for heating, cooling and lighting

Ver Poets

Poetry reading

A selection of poetry readings by Juliet Troy and John Mole.

Mike Wilkins

Money Matters

To avoid the catastrophic consequences of climate change, trillions are needed. But what makes The City invest in green initiatives?

Cam Ross

Investing in solutions

Find out about a group of business angels using their experience and modest amounts of money to help green technology businesses.

Act Two

Rubina Raut

Saving the planet once a month

Hear about periods, taboos, environment and WUKA wear reusable eco-friendly period underwear.

Melissa Painter

Water, water, and not a drop to drink

Why is a country known for grey skies and drizzle water-scarce in South East? Find simple ways to save water to suit your lifestyle.

Catherine Fenton

The art of the matter

Art can be an intriguing way to talk about environmental issues, drawing the viewer in through an instinctive response to imagery.

Stephen Bown

How many?

How are human overpopulation and overconsumption endangering our climate and environment? Both must be addressed together.

Darja Dobermann

The Good, the Bad and the Bugly

Everything you want to know about edible insects as food or feed; what's good, what's bad and what's just plain old media hype.

Act Three

Davina Malcolm

Tikopia

How an island community took action to maintain sustainability.

Alister Barclay

From A to B

Active travel – walking, cycling, running, scooting – can offer massive benefits. We'll examine barriers and how to overcome them.

Karl Wilding

Inspiring action - We count!

We know change is needed, but how does change happen?

**With grateful thanks to all our sponsors and supporters.
Without their help this event would not have been possible.**

HELPING HARPENDEN PEOPLE IN NEED

The Harpenden Trust

20/20 Eyecare, Affinity Water, Arbonne, Harpenden Directory, the staff of Southdown Coop, Parker and Vine, Wobbly Bottom Farm and a Locality Budget grant from Cllr Teresa Heritage

With thanks to all the speakers and performers who took part in the event;

the host Susan Watts who guided us through the day;

students from Sir John Lawes School who volunteered on the day,
including Archie Albone and Ellie Pannaman who filmed the event;

Matthew Flowers for video-editing;

students and staff of Heathlands School for Deaf Children, Sir John Lawes School, St Albans Girls' School,
and St Helens CE Primary School who prepared inspiring videos for the event;

Harpenden Town Mayor, Cllr Rosemary Farmers who concluded the event;

the selection committee who undertook the difficult task in sifting the great response to the call for
speakers for the event: Carl Cheevers, Catherine Ross, Dan Fletcher, Deborah Atkins,
Erin O'Rourke and Lesley Flowers;

and the organising committee, who made the event happen:

Adam Peters, Caroline Moran, Dan Fletcher, Deborah Atkins, Helen Cox, Lesley Flowers,
Susheel Rao and Sofia Iqbal.
